“ To all Ula's family,
It was my privilege getting to know Ula and some of her family. It may have been my job to help her wash up and do her exercises , but it was also my pleasure to visit with her. We hit it right off from the beginning when I commented on her houseplants and told her that I had quite a few plants too. Her reply to me was "Do you have a rabbit foot fern?" She was delighted when I said "yes" . So began many short visits about our plants as I worked as her home health aide. 2 or 3 times a week. After she got her fern from me, she shared a part of her baby tears plant with me. I had been looking for baby tears for many years, but when I asked florists and garden people, they never knew what I was talking about, but Ula did!
Thank you all for all the love and care that you gave her. She enjoyed being in her home to the end. One regret I have is that I was never able to get my Mom, who is also 94, up to see her, even though Ula kept asking me to bring her up.
Unfortunately, I had no way of getting my Mom into her house since she has difficulty with her knees almost like Ula did.
Love & Prayers,
Mary Taber , HHA for HCR and friend
