“ *My mother in law moved to Beekman Towers while Connie lived there. She made the transition so much easier for all of us particularly. Elaine herself. Connie kept an eye in her, called us many times if she had concerns and went to the hospital with her until we could get there. I hadn't realized she worked in Mental Health until I saw it in her obituary. No wonder she was so good at helping Elaine! Thank you for sharing Connie with us. She made a huge impact at Beekman Towers.*
