“ Eileen was my accounting supervisor. Oh how I loved her. She was the only person that I have ever known, that could add, 6-8 figures across and 5-6 down, and come up with the answer in her head. And I always had to test her answer out.

I now find it fortunate for me, that I was able to visit her in the Nursing Home, just before the beginning of Covid.

She will always have a special place in my heart.

My sympathies to all of her family and friends. Hugs to all.
